CAPITAL OF RUSSIA FILLED WITH GLOOM.

Official Gazette Admits Enormous Loss by Kouropatkin's Army.

The Flower of the Czar's Forces Reported Annihilated in a Great Two-days' Battle at Haicheng-Capture of Liao Yang Denied-War Vessels North of Shanghai Sighted Firing.

THE DIRECT WIRE TO THE TIMES.]

Tr. PETERSBURG, June 21. - [Exclusive Dispatch.] The Russian capital tonight is in deepest gloom, awaiting the official announcement of the utter rout of the Russian army in a great two-days battle which has just been fought at Haicheng. The announcement by the Official Gazette that a battle SKIRMISHES BETWEEN OUTPOSTS has taken place and the meager report of enormous losses by the Russians has made it certain that the attempt to relieve Port Arthur has failed, and that, as a result, Gen. Kouropatkin's at Haicheng are denied by the General Staff. The Japanese are continuing to army is in danger of utter rout or annihilation.

The number of dead and wounded on either side has not been officially announced, but all kinds of reports are afloat, some of them no doubt inspired for the purpose of preparing the public mind for the worst. The object has already been accomplished,

and the official announcement is hourly expected. After the defeat of the Russian forces under Gen. Stakelberg at Vafangow, his retreat was intercepted by heavy reinforcements, said to have numbered 20,000 soldiers, the flower of the Russian Eastern army. When these veterans were dispatched southward. Kouropatkin sent the mysterious message, given out some time ago: "It is done." It is now believed, because of the reports that have been allowed to leak out here, that after the defeat of Stakelberg's army, the two Japanese armies, under Generals Kuroki and Oku, effected a juncture. It is this combined army, far outnumbering the Russians, that has met and defeated the Czar's veterans at Haicheng. It is reported here that Gen. Kouropatkin in person directed operations at Haicheng.

Advices received from European points considered strongly pro Russian declare that Mukden is in a panic, and that Gen. Kouropatkin is hurriedly preparing to retire to Harbin, and even further, if the Japanese follow up their advant

ATTACK ON LIAO YANG. TBY DIRECT WIRE TO THE TIMES.]

NEWCHWANG, June 21.-[Exclusive Dispatch.] It is reported here that Japanese cavalry attacked Liao Yang at a late hour last Saturday. An American missionary here is informed from native sources that fighting continued Sunday, and that the town was captured Monday afternoon.

The northeast wind brought sounds of firing from the direction of Haicheng for several hours yesterday afternoon. Flashes of artillery fire were visible in the sky in that direction at night.

BLOODIEST YET FOUGHT. [BY DIRECT WIRE TO THE TIMES.]

LONDON, June 21 .- [Exclusive Dispatch.] All attention is focused on the rumored battle at Haicheng, Monday, but the facts are still impossible to learn. A St. Petersburg dispatch describes it as the bloodiest battle yet fought. The Russians are said to have been severely defeated, and to be retreating to Liao Yang. This is causing a panic in Mukden.

The source of this and other stories cannot be traced, and the facts may prove different. Recent disasters seem to have bred numerous scaremongers in St. Petersburg, who, in the absence of definite news, launch wild stories unchecked. There seems, however, little reason to doubt that there has been further severe fighting, though the result is only conjecturable.

The rumored capture of Liao Yang is discredited here. An examination of the map, in connection with recent official despatches, shows that the report is most improbable.

HICAGO, June 21.-Without a disturbing element to impede smooth operation, the first day's programme of the Republican National Convention was carried out like clockwork. Not a jarring sound was heard, not a false step taken. It was an assembly of non-com delegates, which carried into effect, without the thunderous demonstration usually attendant upon political conventions, purpose that had been clearly

His address was a review of the acadministration and a defense of Republican policies in general: When that had been delivered and the various working committees dispatched to their la bors, the business of today's session was completed.

CHICAGO, June 21.-[Exclusive Dispatch.] Standing amidst the great men of the nation and facing a wildly enthusiastic audience of 10,000 American men and women, Elihu Root, former Secretary of War, today fired and Sado were next sighted, and soon after the Hitachi, which was filled with troops, disregarding the signal to stop, put on full steam. The Russian cruisers thereupon opened fire on the Hitachi, crippling her engines and setting her decks aftam. The Japanese refused to haul down her flag. The vessel was then sen to heel over, and hundreds of the Japanese jumped into the sea. They were all drowned. The Hitachi was then sunk by a torpedo.

The Sado obeyed the summons to stop. She carried 1350 coolles for railroad work in Korea; 1200 tons of coal, 1000 tons of rice, railroad and telegraph equipment, 100 /horses and a large amount of specie. The specie was thrown overboard by the purser. Besides ten boats, the Sado carried twelve rafts, each capable of carrying 100 men. Besides this, the California headort at this moment to be found throughout the whole city of Chicago. The reasons for this lie first in the fact that California is a magic name, that attracts the human heart as the pole attracts the needle, and, secondly, it is because the average person wh goes about nosing into things is not above taking a glass of good wine when the thirst is upon him, especially when no charge is made for the same ce of these two cor binations of fact and sentiment, the California room in the Auditorium

They say that the "Jedge" has bogged things, and many other sarcastic and cruel remarks are being made about him. They place him for hogswoggling Mose Gunst out of a place on the Nommittee and for shutting Abe Ruef, the friend of Fiddler Gene Schmitz, out of the convention.

It was the one ambition of Mose Gunst's life to be among those who would notify President Roosevelt of his nomination, although it was be-lieved that Teddy would hear about about it anyway, even if the com-mittee never went near him. It is the chief boast of Mose that he is the President's personal frien! They were police commissioners, at the same were police commissioners at the same time, though at different edges of the continent, and once, when Mose went to New York, he spent five minutes chatting with Mr. Roosevelt on the subject of handling cops. He thus became the President's friend, although the President may not be even now aware of it. But "Jedge" McKinley stacked the cards on poor Mose and substituted a Governor in his place.

However, let not these things cause any alarm. Perhaps California can even yet be landed in the Republican commiss, and an how, it is a hundred-to-one shot that Roosevelt and Fairbanks will win in a walk.

his railroad that he probably will decline, even if he has not done so

already.

President Roosevelt thinks, as do a good many other people, that Paul Morton is a smashing big man, who would be a credit to any job he might fill. Chicago people are would be a credit to any job he might fill. Chicago people are said to be trying to force Morton to go into the Cabinet, but they admit they are making a bad fist of it, because he is satisfied with his present job.

The absence of fortifications, says, discounts the idea that the Japanese intend to make Korea their base, The Korean soldiers, he points out, are almost worthless, even when lead by good officers. A tour of the country east of the

Manchurian railway made by the cor-respondent shows that there is no large organization of Chinese bandits, and that the bandits consist of only a few scattered bands.

INDIANAPOLIS (Ind.) June 21.-The bere, little the worse for my ten days experience.

"On the whole, I may say that while I was in the hands of the Russians I was kindly treated.

"On the night of June 13, the Japanese made another attack on Port Arthur, both by land and by sea. I saw distinctly the firing from my cell window. When the affair was over, the Russian officers returned laughing to their quarters, reporting that the enemy had been easily repulsed.

"The talk is that Gen. Kouropatkin is likely soon to take charge in person at Port Arthur." News today received from Hector Fui-ler, its special war correspondent, who effected an entrance into Port Arthur, where he was imprisoned five days and was then ordered from the fortress, a special cable, dated Chefoo to-day,in which he gives his experiences and observations while in the besieged fort as follows:

"After being rowed across from the Miatao Islands in an open boat by two Chinamen, I succeeded in landing separated by it by a range of hills. The bay was occupied by a Russian flotila of four torpedo boats, two destroyers and two cruisers. I landed at daybreak on the morning of June 10, without de-

It looked at first the strength of vanture it looked at first the strength of vanture. It looked at first the strength of vanture is soldiers, I gradually made my way into the interior of the peninsula. In this way, after a day and night of persistent and cautious effort, I at last succeeded in reaching Port Arthur.

"After some hasty observations there, the hazard of my position became so obvious that, the same day, Saturday, June II. I set out on my return to the bay. But the good fortune which attended me the day before soon deserted me. I presently came in sight of a large body of Russian infantry, when I took refuge in a Chinese village, where I found a hiding place until the danger was over.

"I had not proceeded far from this village when I came upon—a small party of sappers. In order to avoid them, I made a dash up a hill, only to run into another regiment engaged in digging entrenchments. Instantly I

In spite of the bandage over my eyes, I was able to note that the road is one of the most admirable construction, along which troops and artillery could move easily and rapidly.

"Port Arthur was full of life and galety, quite out of comparison with the stories of distress that had reached Chefoo through Japanese sources. Indeed, nothing of this sort was observed. There seemed to be an abundance of supplies, and fresh supplies were coming in from Chinese sources. The Japanese blockade has not been effective. The harbor entrance had been freed of obstructions, the battleships had been repaired and the fortifications are constantly being made stronger. The garrison is larger than outside information had led me to suppose. The troops are in excellent condition, and the general health conditions of the city are good. There seemed to be no apprehension that the city was likely soon to fall.

"The night I was marched into Port Arthur, under guard, the city was unusually lively, as the officers were giving a ball. Three officers were detailed to examine me, and they made thorough work of it. After the examination was completed, I was lodged in prison. The prison is directly opposite Golden Hill. From the window of my cell had a good view of the inner bay and could see distinctly the repaired battleships lying at anchor.

"In the same prison were confined 100 Japanese who had been captured from the blockading expeditions. Several of these had become insane. I, myself, was kept on Russian black bread and wheat for three days, then I was permitted by the authorities to purchase such food as I desired.

"While I was in the prison, I was subjected to seven different examinations. The thing that evidently aroused the greatest suspicion was the passport that had been issued to me at Tokto.

tions. The thing that evidently aroused the greatest suspicion was the passport that had been issued to me at Toklo. It is pretty evident that the Russian officers more than half suspected that I was a Japanese spy.

"I demanded the opportunity of seeing Gen. Soessel, the commandant at Port Arthur, that I might lay my case directly before him. At last, after five days in prison, my plea was allowed, and I was taken before the commander, I made a straightforward statement and I was taken before the commander, I made a straightforward statement of my purpose in seeking to penetrate the Russian lines, and gave a detailed account of my trip. At last he was convinced of my good faith. He said: 'You Americans must be cray,' "As the result of this hearing of my

(BY DIRECT WIRE TO THE TIMES.) SAN BERNARDINO, June 21 .- [Exlusive Dispatch.] The committee apointed by the Board of Trade to con for with the City Trustees upon city charter proposition met with the City Trustees tonight, with the result that the trustees have called a special session for next Tuesday, when candi-dates for freeholders for framing a charter will be selected and the date of

election fixed.

This action followed that of last right, when the Board of Trade appointed a committee to go before the City Trustees with a request that the latter call the election.

The meeting was quite warm at

imes, numerous tilts occurring between City Trustees and members of the Board of Trade, the former having suddenly backed away from the charter proposition, once before, and refused the request of the property holders of the town for the right to vote upon the question of a city charter. The opposition is supposed to come wholly from the liquor element, which dominates the Board of City Trustees and holds the balance of power here, on account of the apathy of the great majority of citizens to take an interest in the political questions of the town. It is pointed out by those, who favor a charter that one can be framed which will not in any way interfere with the saloon interests and, as this idea is the principal one which will be used to swing the trustees into line, it is he Board of Trade, the former having trustees into line, thought that the movement will meet with success. WISCONSIN CASE.

LA FOLLETTE MEN BOLT. (BY THE ASSOCIATED PRESS-P.M.) CHICAGO, June 21 - The La Follette faction of the Wisconsin Republicans declined to make a contest before the Credentials Committee, this afternoon, declaring that it refused to do so on the ground that the Committee on Credentials was not an unprejudiced body, and making the flat statement that they understood that some of the members of the Commit-tee had been "approached." What the nature of the "approach" might be, or by whom made, the La Follette people declined to state. They entered into no particulars, simply making the broad and general charge of an "approach," and withdrew.

The La Follette people were repre-ented by W. G. Conners, of Marshfield Wis.; Gilbert E. Roe, of New York, and Henry F. Cochems, of New York. The burden of proof was on the contestants, and they opened and closed their case with a single state-ment by Mr. Roe, who said: "We do not consider this an unprejudiced committee. We understand that you committee. We understand that several members of this committee have been approached, and we therefore decline to present our case, preferring to submit it to the people of Wisconsin at the election next November. I will file with the committee this paper

Roe advanced to the clerk's desk, handed up his paper and then, in company with Connors and Cochems, left the committee room.

The La Follette people declined to make any statement as they left the committee-room, but marched straight across the anteroom down the stair-way and left the building.

The "stalwart" faction, upon leaving the committee room, was handed the statement turned in by Roe, and retired to the office of the sergeant-at arms to formulate a reply. Senator Quarles said: "They were simply afraid to meet us on the floor of the convention or before the Committee on Credentials. He was supported in his objection by the delegates from Delaware, Connecticut, Pennsylvania and Rhode Island. Nixon urged that the continued increase in votes given to Territories was simply throwing into their hands the control of the convention, in the event of a close contest.

event of a close contest.
"The Democratic convention of 1896," he added, "was controlled on the silver question by the votes of the Territories, and to my mind it is high time that we cut down the representation in the convention, not only to the Territories, where no electoral vote is registered, but in such States as always cast their electoral votes for the Democratic ticket. Representation always cast their electoral votes for the Democratic ticket. Representation in the convention should be in a reasonable measure representative of the Republican votes cast, and these States and Teritories should not, out of mere sentiment, be given as many votes as States that always cast their electoral votes for the Republican candidate."

The Alaska member of the committee, W. D. Grant, speaking for the amendment, said that his Territory, with its great growth and shorn of much honor, askad the axira ranca

Mr. Nixon protested that his page-tions were not raised particularly against Alaska, but to the whole system, which, if adopted, vould give a out forty-two votes in the convention to the Territories, enough to control on any close proposition.
"I agree rather with the late Sen-ator Quay," he said, "who believed

in lessening, rather than increasing the votes of those States who do little or nothing to aid the party. Let the reward for Republican majorities be increased representation and the pun-ishment for failure to assist be reduced representation."

The Speaker was vigorously applauded, but the vote on the motion to allow Alaska increased representation was twenty-one ayes to nine noes, the Southern and Western States voting solidly for it. The committee then adopted the rules of the last conven-tion and the Fifty-fourth Congress as the rules of the convention, with these amendments:

Rule 1, to read: "The convention shall consist of a number of delegates from each State equal to double the number of Senators and Representa-tivés in Congress; six delegates each from the Territories of Arizona, indian Tcilitory, New Mexico Alaska, and Oklahoma; six from Porto Rico with two votes; six from the Philip pines with two votes; six from Hawaii, and two from the District of Columbia. As Senator Fairbanks, at the head of the Indiana delegation, entered, the first ovation was tendered. A smile lit up the face of the Senator, as, amid round after round of applause and the first cheers to be heard, he worked his way to the seats of the Indiana delegation, near the platform. The first accident to any of the delegations resulted in a serious injury to William Hodson, an alternate from Hastings, Minn., as he was about to enter the convention hall. Just as he alighted from a street car on the Wabashavenue side of the building, a cabasproached. The horse struck Mr. Hodson, who was knocked down and the wheels of the cab passed over his left leg, just above the ankle, producing a compound fracture. Another prominent arrival at this moment was ex-Gov. Black of New York. The Alaska delegation, carrying totem poles, mounted with American eagles, attracted attention and was greeted with applause. There was a very small crowd outside the half. The arrangements were such that delegates and spectators were rapidly admitted and in an orderly manner: A few bands that had led the marching clubs played outside the entrance, but mo especial demonstration was made by the small crowd of spectators in the street.

SEATING THE DELEGATES. Some difficulty was experienced in hour found Chairman Payne, gave in hand, waiting patiently for the delegations to find their places before calling the convention to order. Shortly after noon, special messengers were sent out through the large nall in seffort to get the delegates seated.

Loud applause greeted Senator Perrose of Pennsylvania as he marched in, followed by the Pennsylvania delegation, which was one of the last to arrive.

MR. ROOT'S SPEECH. REPUBLICAN POLICIES STATED.

Mr. Root said in part:

"Save our nation, we beseech Thee, from all the evil things which deflict the home, impair civil liberty, corrupt politics, or undermine the integrity of commercial life. Bring to naught the schemes of men who would debauch or oppress human life for the gratification of lust or for personal enrichment or power. May exalitation come only to men who despise the gain of oppressions and shake the hands from holding of bribes. May all sections and races, all creeds and sentiments, all occupations and interests become united through the Spirit of the Highest into a citizenship with a passion for righteousness, wherein each individual shall look up to God as the Father of all and on every man as a brother.

through struggles of years gone, and the stress and heat of old conflicts, and the influence of leaders passed away, and the ingrained habit of applying fixed rules of interpretation and thought,—all give to a political party known and inalienable qualities from which must follow in its deliberate judgment and ultimate action, like results for good or bad government. We do not deny that other parties have in their membership men of morality and patriotism; but we assert with configence which gave it birth and have maintained its life, by the causes for which it has striven, the ideals which it has followed, the Republican party as a party has acquired a character which makes its ascendancy the best guarantee of a government loyal to principle and effective in execution. Through it more than any other political organization the moral sentiment of America finds expression. It cannot depart from the direction of its tendencies. From what it has been may be known certainly what it must be. Not all of us rise to its standard; not all of us rise to its standard; not all of us rise to its standard; not all of us are worthy of its giorious history; but as a whole this great political organization—the party of Lincoln and McKinley—cannot fall to work in the spirit of its past and in loyalty to great ideals.

largely as a basis for action by the committee. His draft included a plank strongly commending the established Republican party on the tariff, and presenting in terse language the necessity for maintaining the protective policy in the interest of American labor and American industries. Added to this was a declaration committing the party to a readjustment of the schedules if found to be desirable in the future. schedules if found to be desirable in the future.

There was also a mild declaration on the subject of reciprocity and a pro-nouncement, against trusts, but with a reservation in the interest of "estab-lished, legithmate industries." In this connection it congratulated the party upon legislation on the trust question which has been secured since Mr.

There were also planks dealing with There were also planks dealing with the Panama Canal and the policy of the United States toward Cuba, upon which the Republican party is felici-tated. It also contained a declaration in favor of encouraging American

in favor of encouraging American shipping.

Mr. Lodge's draft did not contain any declaration on the subject of the arbitration of the Canadian boundary question, but members of the committee suggested a plank covering that point, the remark being made that the fact that Senator Lodge had been a member of the commission should stand in the way of a proper presentation of it in view of its importance.

stand in the way of a proper presentation of it in view of its importance.

A number of suggestions made by outsiders were considered, but none of them had been acted upon at 7 o'clock, and the committee took a recess for dinner. Indeed, none of the propositions, including those presented by Senator Lodge, had at that time been more than tentatively considered, and members of the committee expressed the belief that many changes would be readed before the final acceptance of the platform.

The tariff plank is attracting more stiention than other features of the platform, and members of the sub-committee think that no agreement will be reached until a very late hour. Already objections have been raised by the wording of the plank, and Representative Dalzell and Senator Hansbrough are opposing the clause relating to reciprocity.

Mr. Dalzell does not want any reference to the subject while Senator Hansbrough is contending for the suggestion contained in his resolution that an adjustment of the tariff should be made with regard to enlarged commercial relations with foreign countries. The reciprocity clause is urged by those who declare that it was in the last speech of President McKinley, and that the Republicans should indorse that portion of his policy. The great effort is to make the tariff plank a "stand pat" declaration and at the same time hold out a promise for revision, "when necessary." How to word the revision clause has been giving the Republican leaders some concern for several days and the sub-committee on resolution finds this the most vexatious question before it.

More time was spent on this issue than on all the remainder of the platform, and all opponents consented to agree only might be taken into the Committee on Resolutions, and possibly before the convention. contained no reference to the question of polygamy and at a late hour the question had not yet been taken un by the committee. Senator Smoot, who has been giving close attention to the matter says that there will be no utterance whatever concerning it.

Just before midnight a member of the sub-committee said that an agreement had been reached on the tariff plank that there would be no minority report by any members of the sub-committee. He said the declaration for protection was emphatic, but promised revision should be made by Republicans. A mild reciprocity clause, he added. Is incorporated in this resolution.

Senator Spooner, though not a member of the sub-committee, entered the room during the evening and took part in the deliberations.

The supporters of the proposition to admit the Territories of Oklahoma and Indian Territory as one State and those of New Mexico and Arizona as another have received what they consider as a satisfactory assurance that a plank supporting that policy will-be inserted in the platform. The plank, as submitted by them, is as follows:

"We recognize that in the admission of New States to the Union regard must be had not only for the rights and best interests of the people of the Territories, but also for the rights and best interests of the people of the United States. Therefore we favor and do now pledge the support of the Republican party to the immediate admission to the Union of the remaining continental Territories as two States, Oklahoma and Indian Territory as one and New Mexico and Arizona as another, under such proper and liberal enabling acts as to the convention shall seem best."

New York delegation, which occupied a position of honor directly in front of the platform, furnished a good example of the prevailing harmony. On the opposite side of the center aisle, in equal command of the platform, was the Illinois delegation, which had a bitter fight withit. Its ranks as late as yesterday. Today, if any soreness remained, to all outward appearances, it has been healed.

State pride figured strongly in the convention. Each State had its friends in the galleries, who showered plaudits upon their delegation as they entered the Coliseum. The first "big man' to arrive was Senator Allison. The lowa contingent cheered its welcome, and this was then taken up by surrounding visitors who recognized the Hawkeye statesman. Senator Cannon, Gen. Grosvenor, former Secretary Root, Senator Cullom, Senator Cannon, Gen. Grosvenor, former Secretary Root, Senator Penrose, Senator Scott and other early arrivals received their share of the applause. The fisor filled with delegates so rapidly that many prominent figures slipped in unnoticed. Among these was Senator Lodge, who is accredited with having a more intimate knowledge of what the convention is doing thar any other man. Before the gathering was called to order by Postmaster-General Payne, chairman of the Republican committee, Senator Lodge moved about among the delegates, and his ear was sought continually by embryonic platform makers. The Massachusetts Senator never stopped long enough to grow intimate.

The first speech of the convention was by Senator Scott, who informally presented to Chairman Payne a beautiful gavel. It was the gift of the Chicago committee, presented a smilar gavel to Temporary Chairman Root.

It was left to Gov. Van Sant of Minnesota first to place the President's name before the convention. He found the occasion in presenting to the con-

set a precedent which was followed in succeeding demonstrations.

Today's programme of the convention was not of a nature to effect, more than ordinary interest. The matter of greatest importance was the presenting to the convention of the proposition to admit the delegation from 'se Philippine Islands and Porto Rico. Mr. Root asked for a ruling on the question of calling names of the new possessions in the roll for the naming of members of the various committees. The convention ordered the seating and recognition of six delegates from the Philippines, with two votes and two delegates from Porto Rico.

Shortly before the adjournment for the day, Senator Depew was recognized to deliver to the convention an invitation from President Francis and the directors of the St. Louis World's Fair to the delegates and members of the press to visit the fair to the Louis World's ONE WOMAN DELEGATE.

CHICAGO, June 21.—An incident which is destined to live long after the spasmodic demonstrations have been forgotten, occurred during Mr. Root's tribute to President McKinley. The temporary chairman spoke of the late President's administration's progress, his gentleness of character and those qualities so beloved by the nation, and in that connection, said feelingly: "And with McKinley we remember Hanna." A hush almost oppressive spread over the 7000 or more persons present. The speaker had paused expectantly, Ar he started to resume, the full force of the testretched between the two greatest of recent political heroes went home to the delegates. The applause started, and in a sympathetic wave was carried to every part of the great hall. The din was unlike any that had preceded it or that came after.

An indefinable dignity was attached to the demonstration which seemed foreign to a political gathering. The Fairbanks boom for the Vice-Presidency flourished unrestricted during the convention proceedings. Its impetus was gained when the Indiana delegation entered the Coliseum, and, led by the two Senators, Mr. Fairbanks and Mr. Beveridge, proceeded down the aisle to their seats near the stage. The ovation given Senator Fairbanks was greater than was received by any of his distinguished colleagues. Today's proceedings afforded no opportunity for the adavncement of other candidates. No mention was made of the rames of "favorite sons," whose ambitions are not taken seriously beyond the borders of their own States. The applause for Senator Fairbanks appeared to be general.

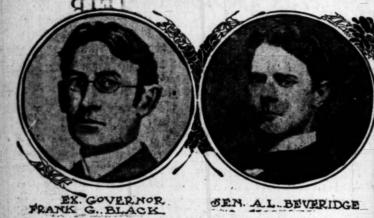

The placidity of political opponents as they sat in the hall, weided into a substantial party citizenship, unani-

invitation from Fresident Francis and the directors of the St. Louis World's Fair to the delegates and members of the press to visit the fair at St. Louis before returning to their homes. Senator Depew started to read the invitation from his seat, but at the demand of delegates and spectators he mounted the platform. There he passed the invitation over to a clerk to read. When it was concluded, Chairman Root suggested that the Senator might want to make a few remarks. The suggestion was accepted, and in recommending that the invitation be accepted Senator Depew said the Democrats are claiming the credit of gaining an empire peaceably on the ground that the party through Jefferson had bought the land. The Republicans, he said, had tilled it, and were going to share the harvest. The speech was received with favor, and the invitation accepted.

On the 18th of November, 1901, the Hay-Pauncefote treaty with Great Britain relieved the enterprise of the right of British control and left that right exclusively in the United States. Then followed swiftly the negotiations and protocols with Nicaragua; the Isthmian Canal Act of June 28th, 1902; the just agreement with the French Canal Company to pay them the value of the work they had done; the negotiation and ratification of the treaty with Colombia; the rejection of that treaty by Colombia in violation of our rights and the world's right to the passage of the Isthmus; the seisure by Pansma of the opportunity to renew her oft-repeated effort to throw off the hateful and oppressive yoke of Colombia and resume the independence, which once had been hers, and of which she had been deprived by fraud and force; the success ers swift to defend their own rights by force were locating mining claims under the laws of both countries in the disputed territory. At any moment a fatal affray between — Canadian and American miners was liable to begin a conflict in which all British Columbia would be arrayed on one side and ail our Northwest upon the other. Agreement was impossible. But the Alaskan Boundary Treaty of January 24, 1903, provided a tribunal for the decision of the controversy; and upon legal proofs and reasoned argument, an appeal has been had from prejudice and passion to judicial judgment; and under the lead of a great Chief Justice of England, who held the sacred obligations of his judicial office above all other considerations, the dispute has been settled forever and substantially in accordance with the American contention.

"Four years ago, our army numbered over 100,000 men—regulars and volunteers, 75 per cent. of them in the Philippines and China. Under the operation of statutes limiting the period of service, it was about to lapse back into its old and insufficient number of 27,-000, and its old and insufficient number of 27,-000, and its old and insufficient organization under the practical control of the permanent staff departments at Washington, with the same divisions of counsel and lack of coördinating and directing power at the head, that led to confusion and scandal in the war with Spain. During the past four years the lessons taught by that war have received practical effect. The teachings—of Sherman and of Upton have been recalled and respected. Congress has fixed a maximum of the army at 100,000, and a minimum at 50,000, so that maintaining only the minimum in peace, as we now do, when war threating the president may begin preparation by filling the ranks to the maximum, without waiting until after war has begun, as he had to wait in 1898.

"Permanent staff appointments have been changed to details from the line, with compulsory returns at fixed intervals to service with troops, so that the requirements of the field and the camprather than the requirements of the office desk shall control the departments of administration and supply. Report Current that President Bovard Does Not Believe the Degrees Will be Forthcoming-Law School Students Would Force Action by

given their degrees at the recent com-mencement, finally get their honor of L.L.B. from the U.S.C.? The next meeting of the board of trustees of the university will not take place until the first week in September, and until that time there can be no official statement as to the granting

the degrees.

A report, however, current yesterday, added fuel to the fires of college gossip, it being to the effect that Dr. G. F. Boyard, president of the university, had made the statement that he did not believe the board would grant the de-

went over to the St. Vincent's College, a Roman Catholic institution, to carry on his studies, is said to have been particularly displeasing to certain of the university supporters.

But as the trustees do not meet for more than two months, there is no knowing what will be the outcome. One thing seems certain, and that is the determination of both Seymour and Bowers to secure the coveted degrees, if possible. Each of them has decided to bring mandamus porcedings to compel the board to issue the degrees in case it should take action withholding them, after the special recommendation sent to it by the dean and the secretary of the law department.

Dr. Bovard talked of the matter to a Times reporter yesterday afternoon, but would not compute himself.

sent to it by the dean and the secretary of the law department.

Dr. Bovard talked of the matter to a Times reporter yesterday afternoon, but would not commit himself as to the probable action of the board. "Of course, nothing can be done until the next meeting," said President Bovard, "and that will not be until September." "But will you recommend that the board grant the degrees?" was asked. "Oh, my recommendation is not required. The recommendation would come from the Law School," said the head of the university.

"Well, is it not quite probable that the board will grant the degrees after the recommendation that has been given by the dean and the secretary?" persisted the questioner.

"Ha, ha!" laughed Dr. Bovard; "of course, I don't know a thing about what the board will do in its session," and that was all that he would say.

Dean Hammack said yesterday that he knew of no reason why the university should not grant the two young men their degrees at its next trustee meeting. "The university has organized its own law department for the next year," said Mr. Hammack, "and our connection with the university will thus cease, but both of these men have satisfied us with their completion of the prescribed work, and I believe they will get their degrees."

Should the board of trustees refuse to grant the degrees, the legal case would become interesting. There has only been one other similar case in California, that of, a student at the Normal School at San Jose, who had completed the course of study, but for some reason was refused a diploma granting him the right to teach in any part of the State. He brought mandamus proceedings and compelied the board to regents to issue to him the diploma.

Bright Class of Eight Youths Finish Course at Military School

With Monors. One of the interesting graduations of the day was that of the Harvard school.

The graduating class was composed of eight bright youths: Edgar Harris

Among the features of the programme was the essay by Edgar Harris Cline, on "The Significance of the World's Fair." The essay was pronounced by the judges present one of unusual excellence both in matter and delivery. Young Cline said in part: "Is not this enterprise, this offspring of western progress, but the realization, along proader and more practical lines, of

broader and more practical lines, of just those results attempted in a praiseworthy but ponderous and insufficient manner by The Hague Tribunal and Peace Conference?

"Not the least wonderful part of this great undertaking is the cordial manner in which the European nations hasten to participate. In a land where a short century ago was a howling wilderness have assembled with a single purpose—to imbibe and impart knowledge in the name of Progress—Great Britain, France, Germany, Russia, all the world powers at the call of civiligation.

Truly the expositions are the timekeepers of progress. They record the world's advancement, and the Universal Exposition of 1904 stands for the completion of the grandest century of progress in the history of civiligation."

Unsightly signboards affording con-cealment for masses of rubbish were resolved half-way off the face of the earth last night at the meeting of the Y.M.C.A. Congress. The affirmating side of the question as debated declared "that signboards on the street are a detriment to the

on the street are a detriment to the city."

For that side the speakers were Rolla McCleary and Marcel Herblin. For the negative the speakers were Fred Johnson and Theodore Fisher.

"Let the advertising be done in the newspapers," was the burden of the argument offered for the affirmative. "These crude creations of alleged art which defile the highways degrade the property on which they stand, both in looks and in actual value. It is common for a lot of trash to be thrown behind one of them, and that means the cost of removal when you start to improve the property."

The lack of discriminating care in the elimination of improper matter was pointed out, and a comparison strongly unfavorable to biliboards was made with the well-edited newspaper. Stress was also laid on the indecent suggestions presented by the glaring signs.

signs.

In offering arguments on the negative side the speakers did not attempt much more than a rebuttal, and they failed to convince the judges.

By a manimous vote the victory was awarded to the affirmative. The judges whre W. E. Switzer, C. H. Caddgan and Mr. Roberts. Lewis Powell acted as critic.

Long Beach Man Brought to Police Station With Many Severe Scalp Wounds Resulting from a Night's Entertainment in a Parlor House.

The fact that some of the "parlo houses" which were closed by order of the police several months ago have been secretly reopened, was forcibly Department yesterday morning about 2 o'clock when R. Morin of Long Beach was brought to the Police Station suffering from several serious scalp wounds. He stated that he had been

sent to the house of ill fame and upon their arrival were confronted by F. W. Ward, who refused to permit them to enter. Ward was armed with a big revolver, but his weapon was taken from him by Detective Baker and the officers entered the place. They found blood all over the house, showing that there had been a general fight. One of the women was almost unconscious and was suffering from a badly-battered face, but she and the other women in the place refused to tell who had assaulted Morin. Ward admitted that he knew who Morin's assallant was, but stated that he had got what he deserved. Ward was arrested for carrying a revolver, but the efforts of the detectives to learn who had attacked Morin were futile.

The place is as tough as were any of the resorts in the crib district when that section was in its palmiest days. The women were very anxious that no publicity be given to the fight and Ward, who is interested in another house of similar character, stated that it would be worth the job of any policeman to report the fight or the fact that such a house was open. It is likely that the house will be closed by the police.

Twenty Girls of Normal School Give Pretty Exhibition at Class Day Exercises.

Yesterday was class day for the graduating class of the Normal School. An excellent programme was given in the gymnasium last night. The en-tertainment was witnessed by an unusually large crowd and many of the spectators found difficulty in obtaining seats or even standing room.

The halls and "gym" were ablaze with light and color and tastefully dec-

The feature of the evening was a Maypole dance cleverly executed by twenty young women of the senior class dressed in white shirt waist suits, They presented a pretty picture and their dancing was graceful, showing weeks of careful training. Many fancy

PHOENIX (Ariz.) June 20.—After modestly sparring around among the politicians, feeling his way at the late Democratic Territorial Convention, and subsequently spending a few wess fishing on Oak Creek, Mark. A. The Normal School Glee Club sang several numbers and an orchestra furnished selections during the evening. The programme was opened with a grand march followed by the Glee Club, class songs and the Maypole dance.

the evening was given over to dancing.

The Normal School "Exponent," a semi-annual publication by the students, was out yesterday and over 800 copies were sold.

One of the most interesting papers in the publication is a "Chart of Los Angeles Bird Life," by Miss Purcell of the senior class. The merit of the article is attested by the fact that several hundred copies of the "Exponent" have been purchased for the training school for use in the study of outdoor life next year.

The graduating exercises will be held formorrow, at which time fifty-seven students will receive the certificates of the school.

Preparations are under way for the cnthuslastic celebration of the Fourth of July in most of the Arizona towns and cities, and some of them are making special efforts.

Martin Ubillos, a life convict in the Yuma prison, about a year ago killed a fellow-convict named Simon Aldersta. He was tried for the offense, convicted, and sentenced to be hanged on June 3 of this year. His attorneys secured an appeal, which acted as a stay of execution, and he again has hope his neck will be saved. The murder was the result of a knife duel in which there was conflict of testimony as to the aggressor.

Owing to the continued drouth in Arizona, the shortage of water supply is not only becoming very serious on the ranges and in the farming sections, but in some parts there is a shortage for domestic purposes. The city system of Tucson is no longer able to furnish an ample supply, and the old gravity system formerly in use has again been placed in commission to augment the supply.

The unreasonable and severe measures employed by many is the direct cause of failure to obtain satisfactory results. Nature cannot be forced by harsh treatment. The importance of experience in treating complicated diseases counts for much and is the foundation of a cure.

VARICOCELE I cure in 4 to 6 days. Many men have been treated unsuccessfully for varicocele. My treatment is painless, and the results are complete and for ever.

STRICTURE. I cure the right way, once and for all. I remove all urethral obstruction, inflammation and soreness and re-store the membrane to a healthy con-dition, usually in 10 to 15 days. CONTRACTED DISEASE

Failure to quickly cure these conditions is due to harm measures, which are the direct cause for chronic conditions. My treatment is the most cleanly and perfect known. I cure Rectal. Kidney and Bladder Troubles, Plics. Fixtule and Blood Diseases, Wasting, Nervous and Chronic conditions, causing functional derangement, impairing strength and vitafity.

Yesterday a Times reporter witnessed one of the closing lessons of the year at the Norwood school, where class of bright-faced girls of the Norwood seventh grade appeared with coquettish caps attit, and appears spitless to a degre, a convestant dish towel swung from the waist, and a neat little holder to handle hot things hung by a tape likewise.

On the board were directions for making fruit punch, for, after the solid labors of the year, it was kind of the teacher to select something that would be interesting and entertaining of nanufacture. Of course one would suppose that there would be no use for a stove, or any kind of cooking, in connection with so poetic a nectar as fruit punch, but you are decidedly mistaken, and there you will find the well-instructed and up-to-date devotees of modern domestic science ahead of the old-time cooks, for a syrup must first be made as a foundation for the punch, instead of raw sugar, which refuses to dissolve and is not economical.

The camera man was waiting his opportunity, and he-caught the class and their teacher, Miss Barker, just as they were busily engaged in stirring this syrup. The flashlight made a noise like the explosion of dynamite. In rushed the janitor to the rescue, and amid it all the self-possessed young cooks did not forget, like King Alfred, and allow the syrup to burn.

Such a jingle of tins and saucepans, on the porcelain topped table that supports the small gas stove! Such an important measuring of sugar, even tablespoons, if you please! and out came tiny chopping boards, and the strawberries that were to go in the punch were carefully silved to just the right sized pieces. Banahas were sliced and bright red cherries were lopped in whole, and when the whole process was completed and the delicious punch put ito the glasses the thirsty cooks were refreshed with the fruit of their labors.

But that was not all: the dishes and utensils must be washed, and every dish towel and cloth rubbed spotiess, for there will be not typhold fever germs where these sm

Young Girls Who Really Can

Teach Mother.

There will surely be no lack of happy homes in the city of Los Ange-les when the present generation of young girls who are busy studying the all-important science of cookery in

the public schools have risen to take the places of their elders. There are 1500 embryo cooks receiving instruction in domestic science, as it is dubb-d, and when one considers what a force

for good digestion and righteous living 1500 scientific, hygienic home-keepers will exert, it is fair to assume that the cry that homes are ceasing out of the land will soon hereabouts be but a

families of the small girls partook were scientifically prepared, from the study of the yeast plant and its growth to the final baking of the perfect loaf. Who shall say that this knowledge does not go ahead of Latin?

If the mothers of these promising cooks are not very particular how they make their tea or coffee, some sharpeyed daughter is apt to give her the benefit of the lessohs that she has had upon the subject. She has experimented with the boiling of water, and she knows how important it is to make the tea with water that has just come to a boil. She has even made tea three ways at school, with water that has boiled too long; she has allowed the tea to steep too long, and then she has made it just the right way, and she knows the difference and has grown quite particular about these all-important details.

A child's study circle had a meeting at one of the schools not long ago. The elders were making tea to be served to the mothers of the circle, and two little giris of 12 years had been detailed to hand around the cheering cup. They

were sharp-eyed girls; they had at-tended cooking classes; they were also well mannered girls; but even the last saving grace could not wholly sup-press the look of concern and then of positive anxiety that appeared upon their round faces as the tea was steeped and boiled right before their astonished eyes. IN COOKERY.

steeped and boiled right before their astonished eyes.

In the two years' course given in the grammar grades such a wide field of cookery is covered that these young girls learn enough of food values and the practical application of the principles of domestic science to be presiding geniuses over the finest culsines that their homes can afford. The extra guards have been dismissed, and at Topeka legal injunctions have been removed. The shops are running full-handed and peace and contentment reign.

It is estimated that over 1200 employés have permanently lost their positions with the Santa Fé by participating in the strike, and of this number very few will find employment in the near future, as the supply of mechanics and boiler makers is far in excess of the demand, pwing to the fact that all railroads have been cutting down their lists. "As far as loss of business is concerned we feel that there has been none: in fact, we know that we have gained by the strike," said a high officer of the Santa Fé yesterday. "The only passenger business which we have lost was a boiler makers' excursion pionic out of San Francisco," he added with a hearty laugh. "Illustrating our gain of business, a man in San Francisco was on his way down town not long ago to buy tickets East over the Southern Pacific. As he got off the car he ran into one of those sandwich men bearing boycott legends against the Santa Fé. When he read the sign it made him so angry that he rushed to our office and bought four round-trip tickets, and his family went, East over our line. We have done more freight business than in any other year in our history, and we know that the result of the strike has been a better equipment all the way round."

In Pueblo he addressed a meeting of the machinists' union, and claimed that every man on the Santa Fe sys-tem was organized, and that he had "pumped and clubbed strike into their heads."

A successor to Wilson has been ap-pointed, and is now hanging around in San Bernardino wondering what will happen next.

MEDICAL MISSIONARY HERE.

Dr. F. J. Pursell, a medical missionary of the Presbyterian Church, has just returned on a furlough from the Philippine Islands. He went to the States Army, and when his term of service expired, applied to the Fresbyterian Church for a commission to remain as a medical missionary, wherein its demands were unreasonable. But had the twenty rules set down in the schedule presented by the association been an exact duplicate of the present ideas of management of the officers of the Santa Fé. Mr. Kendrick would not have granted the demand that copies

"The officers of this company establish all the rules that may be necessary, for the governent of its shops and employes working therein." he wrote in his answer. "The posting of association rules would have been a recognition of union supremacy, and this the Santa Fe will-never do. This system must and shall be open in the true sense of the word, not only to union men, but to any artisan who can and will faithfully and skillfully do his part in the work incident to the mechanical operation of the road."

When it was learned by the Santa Fe that in vote was to be taken by the machinists as to whether they should strike or not strike, an open letter was placed in the hands of every machinist employed by the company, explaining the exact results of such a step, and warning them that any employe who broke his contract would never be reëmployed by the company. "I wish all our men to understand that it is a bad plan to strike first and negotiate afterward," wrote Mr. Kendrick.

SUMMARY OF THE DAY.'

burning would go into the outfall sewer.

A fitting sequel to Johnson's retirement is a statement by City Engineer Stafford that he had examined the kiin and while the test had not yet been completed he was of the opinion that at least 40 per cent. of the burning would be up to specification for sewer brick, probably more.

This is a really better report than the members of the company expected. They claim that when their new machinery is working they will be able to turn out whole kiins that will be within the 5 per cent, specification required for sewer brick.

COUNCIL COUNTING COST.

Members of the Finance Committee and of the Board of Public Works of the Council are investigating the respective cost of sprinkling improved streets with oil and water.

Here are the results of the first day's investigation: Sprinkling with water, \$400 per mile per year. Sprinkling with oil; first year, \$600; second year, \$300; third year, \$500.

This looks good for the third year and later, but the Councilmen are trying to devise a plan, which will lessen the cost for the dirst year. The

ver, and determined to make her home here. 's short time ago she began suit against Albert John for divorce on the grounds of desertion and failure to provide, and the latter came back at her in a cross-complaint in which he tells of his physicial and mental wreckage. Rather oddly he does not aver that this is the result of the loss of the love and affection of his wife, and so Mrs. Stone inclines to the belief that he is still mourning over the money that slipped through his fingers.

A short time ago Judge Oster made an order that Mrs. Stone pay her husband \$100 in order that he might take steps to defend the action in divorce. As the wife had no ready money and had to wait until she received her regular income she was hauled into court yesterday to show cause why she should not be punished for contempt. That matter, with the rest of the case went over, but it developed that Albert John wants the court to make an order that his wife pay him \$100 with which he can fight the divorce suit. He says that in order to prevent perfury he must be on the spot himself. At the present time the husband avers that only through the indulgence of friends is he being allowed a "stippend"—not a salary or wages—of \$25 a month, as solicitor for a plate glass insurance company, and that upon that meager sum he cannot keep body and soul in amicable relation. But if he can only get that \$1000 he intends to take depositions in Denver and come I here armed with a bundle of affidavits that will make his wife sit up straight. Judge Oster took no action yesterday. There are many ramifications to this curious suit, and the whole matter was continued until such time as it may be dealt with as a whole.

DOVE ORDINANCE.

A number of sportsmen petitioned the Board of Supervisors a short time ago asking that the open season for dove shooting be changed from the first of August to July 15, and the opening of the close season made as at the board might deem best. Testerday the matter was up before the board for determination.

opening of the close season made as ar the board might deem best. Yesterday the matter was up before the board for determination.

There were present a number of protestants a ainst any meddling with the ordinance as it stands, and these included representatives from the Farmers (lub and the Audubon Society. Strangely enough no one was present to champion the suggested changeave three of the Supervisors who did it in good style by plumping their votes in favor of a prelonged season.

The protestants showed that during July doves have young still in the nests, and that it would not only be revel, but a short-sighted policy to kill off the old birds before the young birds were well on the wing. Seven or eight different persons spoke against the proposed change, and then when the came to a vote. Supervisors Alexander, Pattersond and Wilson voted in favor of changing the open assason for dove shooting from the month of August as it now stands, so as to make it seems in instead of one, as heretofore, and is more than the petitioners were asked for, but the one vote changed the ordinance.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.
SENT TO FOLSOM, Thomas Smith pleaded guilty yesterday to burglary in the second degree, in having Stolen a suit of clothes from the room of H. N. Brown. His record was good so Judge Smith sent him to Folsom for one year. Smith asked to be sent to San Quentin, but was refused.

TO HIGHLAND. Miss Mary White-law was committed to Highland yester-cay by Judge Wilbur. The woman was found at her home in the East Side in a state of supreme fithiness, and has suffered from delusions.

HARNESS FOUND. Juan Bobdio was arrested yesterday by Deputy Sheriff Sepuiveda, on the charge of burglary. About a month ago the defendant broke into the privace stable of T. B. Botiller, on East Eighth street, and stole a set of single harness besides some from work and miscellaneous articles. Bobdio had worked at the place some time previously and knew just how to enter.

BAKMANS RELEASED. Charles and Daniel Bakman will not have to stand trial for having committed a high-grade misdemeanor, in having allowed their cattle to pollute the Los Angeles River. On habeas-corpus proceedings Judge Smith ordered the men discharged. The court held that when a river runs alongside or through a ranch the tenant cannot be expected to go to the expense of fencing the entire stretch of stream.

COUNTY SUPPLIES. The Board of Supervisors yesterday awarded the contracts for county supplies for the several institutions as follows: Groceries, Anderson & Chanslor. Stockwell & Bradford and Reichnert Bros.: wines and liquors, T. Vaché; electrical energy, lights for the hospital, Courthouse, Detention Home, jail, to the Los Angeles Lighting Company: drugs. Henry Weinschenker, the young forger, who has 'confessed to getting money on bogus checks from numerous tradesmen in the outlying districts, was held yesterday by Justice Austin on a second charge of forgery, with ball fixed at \$500.

These will probably be the only two charges preferred against him if he keeps his promise to the detectives who arrested him and pleads guilty in the Superior Court. He was held on one charge in \$1500 by Justice Chambers on Monday.

His young wife was allowed to hold a long consultation with him before he was locked up, but the only consolation she could offer was her presence.

ENDURANCE RUN.

ONE TO COME IN JULY. Early next month a number of San Francisco automobilists will start on a nine days' endurance run to this city and return. They will be the guests of the Automobile Club of Southern California during their one-day stay here taking four days for the run each way, no attempt at speed being intended. For the return trip a number of Los Angeles auto enthusiasts will turn out, making the run to San Francisco in company with the northerners, and coming home alone.

in company with the northerners, and coming home alone.

Roads have been reported in good condition. Four people will be carried on each car, One will be an observer of the Automobile Club of California, which is authorising the run. Tests of gasoline consumption, quick repairs and car comparisons will, be made. Quite a number of ladies will ride and several will drive their own cars. The running will be by daylight, and a low rate of speed is compulsory.

It is remarkable chiefly prevails in favor of the candidate who is to be nominated for the first place upon the ticket. No other candidate than Theodore Roosevelt for President is in contemplation, and no other name than his will be brought before the convention for this exalted honor. That he will be nominated by accla-mation, without the formality of a ballot, is more than probable. This in itself will be a compliment and a pledge of loyal support rarely accorded to any candidate for public office. At the first Republican National Conation, in 1856, Fremont was unani-usly nominated for President on first formal ballot. In 1864, Lin-Grant in 1868, and McKinley fh 1900 received a like compliment. the second place on the ticket has crystallized rapidly since Mr. Fair-banks made a definite statement to the effect that he will not decline the momination, and there is hardly a doubt that he will be nominated for Vice-President by unantmous vote.

But while the Chicago convention is notable as being one of the most harmonious, national conventions ever held, it is not to be supposed, for this reason, that the Republican party will be apathetic in the pending campaign. The party is in first-class fighting trim. The harmony which is manifest in the convention is but a reflection. in the convention is but a reflection of the harmony which exists in the party at large. There are of course, ome minor differences on questions of olicy, but these are not of such a character as to weaken the Republican ranks in any appreciable degree, much

The occasion is opportune for The Times to make observations.

Under its new owners the Herald appears with a complete change of front politically. It is now Democratic. Its new-found Democracy is of the old style-"the faith of the fathers," as the editor declares.

The reasons for this change of front are set forth in two editorial articles. written in plain, vigorous United States language. Some of the expressions used in at least one of these articles have a familiar sound-yes, they are familiar, and have appeared in the same columns years agone. No reader of the Herald in its earlier and its more natural life, before it broke out of the party of its original adoption, can note the postulates and premises portentously projected upon the populace in yesterday's issue with out detecting the forceful and picturesque authorship, or recalling times when things were "different." the candidates who are to bear the Republican standard, instead of being

Assuming these ob ervations from the other camp to be Pickwickian in their meaning, we say very well; so he it; let the bugles sound; let the hewgag beat; let the fuzzyguzzy blow, and let the battalions wheel into line of fight. Lay on, Macduff, and the rest of your tribe! The Times thinks it can discern in the language of these first editorials under the Herald's new auspices the skilled hand of a well-known former veteran editor of that paper, and likewise the hand of the young knight of Democracy who is the responsible head of the establishment. We can hardly be

The Herald's "leaders" cover other oints of policy advocated, most notable among which is a square declara-tion for "equal rights for all, special privileges to sone;" which declaration The Times interprets as a direct protries and the "open shop." Congratuations are in order. The reform is imely. It is a stroke of policy, a confession of previous wrongdoing, and a opposed — unqualifiedly opposed — to joint Statehood. Her people have repeatedly declared themselves on this point, through popular meetings and conventions, in numerous protests and resolutions, by the voice of her press, lions will rejoice—and marvel—when they see the Democratic party converted into "the St. George which will discomfit the dragon of brazen law-lessness." ["Hear, hear!"]

The Herald marches back into for the mere sake of personal capital or to avert popular clamor. He has refused specifically to vote for joint own people ask nothing more, nothing the consumma ion will come in good time: and Senator Bard will do his criminating public.

On the ever-present and always vital labor question the paper has proved itself notoriously weak, cowardly and dissembling. There are rumors why the rumor seems incredible, however.

In the first place, The Times does not have a wet nurse who could take care of the thing. In the next place, would it care to assume the responsibility of Sammy with Fourth of July coming?

Sammy is one of those boys who always want to show people how to do. In his early youth he narrowly escaped serious trouble trying to explain to an aged and petulant hen how eggs ought to be sat on. Since then he has been trying to show Los Angeles, and is at times a great nuisance. He uses the Oxpress as a squirt gun, it doesn't hurt anything; but he isn't careful and makes a muss and annoys the neighbors.

Few have ever forgotten the cyclone of cheers that burst over the Republican Convention of 1830 as Conkling, tall, majectic, imperious in his bearing, strode upon the platform and faced that great audience of 20,000 souls. Conkling was there determined to secure the nomination of Ulysses. Grant as President for a third term. It was fifteen minutes before he could be heard. The mighty thunder of those 20,000 throats, from friend and foe, rolled and crashed and rumbled on. At length Conkling swinging his arms above him, brought them down, down, down, by graceful moves as if to soothe the tempest. He did this a dozen times. There was silence at last. In a voice broken by four days of battle in committee-rooms, and on the floor of the convention, yet sonorous in its very hoarseness, he began his speech by declaiming:

Empty Fishing Dory Believed to Mean Death of Boatman-Mrs. Yensen of El Toro Sits in Rocking Chair and Watches Fire Destroy

SANTA ANA, June 21.—Jesse A. Mott, an 18-year-old boy who lived with his widowed mother a mile and a half northeast of Garden Grove, while digging a pit for a well pump yesterday afternoon was caught by falling earth and literally buried alive under a ton of sand. The young man was working in the well while a neighbor, C. G. Lott, and Mott's younger brother were at the shaft drawing up the dirt by the bucketful. The pressure of sand on the sides of the pit broke in the wooden casing and the unfortunate boy was

In spite of their utmost efforts it took nearly three hours to disentomb him, and a physician who was in waiting pronounced him dead. If evidently having bee nsmothered out within a few minutes after the accident occurred. A Coroner's jury found death was due to suffocation caused by accidental caving in.

The case is peculiarly sad as the boy's mother, Mrs. Mary J. Mott, is a widow and was partially dependent on her son's work for support. She and her two children came here from wichitak, Kan, two months ago and settled in the Gorden Grove country on the rainch where the fatal accident occurred. She is prostrated and will probably return to her former home.

WHAT OF THE BOATMAN?

Fishermen at Newport Beach today discovered an unoccupied fishing dory addiff on the sea with every indication that the owner had come to an untimely snd while plying his trade. The craft had its mast hosted and sail set and hanging over one side of the boat was anet partially drawn from the water and containing a good catch of barractuda. The oars and oarlocks were in place and to all appearances the fisherman while hauling in his net hal accidentally been drowned. The boat was painted dark red and in the opinion of the fishermen was from Redondo or San Pedro.

Mr. Ross expressed sorrow that there should be so many of the class absent, and said that it reminded him of a story of a little girl who brought an excuse loschool, which, when the teacher opened it, read; "Dear teacher: Please excuse brother's absence, he's dead." "The boy," continued Mr. Ross, "was excused, and so we will have to excuse the absent members of the class, for they have been too, long in 'fanland,' and are almost dead." Mr. Ross's speech though short, was continually interrupted with applause and started the ball of fun rolling. He was followed by Mrs. Kathering Nash Thomas, whose togat was "What We Have Forgotten," and she did ample justice to her subject. Benjamin Page spoke of "Our Memories." and Neal Traylor gave the closing tosat of the evening, "Toasts and Their Making." Both were enthusiantically received. The music, during the banquet and for the dance that followed it, was furnished by Dyer's Orchestra.

At the business meeting which preceded the banquet the following officers were elected for the coming year: Prsident, Benamin Page; vice-president, Harry-Ross; secretary, Miss Mammie Moore. It was also decided to elect an Advisory Board, but the choosing of those who should compose it was left to the officers already elected.

REDONDO.

TOWN GOES FOR LICENSE.

REDONDO. June 21.—The "weta" won the election here today by an overwhelming majority. Great excitement prevailed all day, but the bailloting passed quietly, there being no trouble. This vote is a decided indorsement in favor of the liquor license by the people and both sides, owing to the intense interest, are glad that this question is finally settled.

The large vote cast was a demonstration of the importance of this issue. There were 312 votes polled, 176 in favor of licensing saloons and 137 against. The election is only a "straw" one and has no legal aspect and the instructions issued to the board of election for their guidance, while being rather unique tended to avoid any serious difficulty among the voters. Teams of all kinds and descriptions, decorated with banners inscribed with the different mottoes of the contending parties, made the town look as on holiday parade.

A review of the situation brings to light the fact that the issue was promulgated by a few embryo politicans who, finding at the beginning that they were unable to handle the proposition, invested the church and temperance element into the fray, costing the combined forces many a dollar.

For the past-week temperance lectures have been given almost every night by some of the best known lecturers in the State.

Redondo had just about gotten over the throes of the last political campaign in April, when this agitation again came up, much to the detriment of the town's interests.

It is believed that the movement at this time was ill-advised and the citizens have learned a most costly l'asson that the agitation of public matters of tals sort (right at the beginning of the summer season,) is poor business politicy.

Trustees last night granted the White Star Pier and Amusement Company permission to build and maintain a free pleasure pier at the foot of Hollis ter avenue. The material for the pier is expected before July 1, and contracts for the construction have all been let. F. W. Pearson, president of the company, said this evening he expects to have the pier completed within sixty days. He said the effect will be to create in time quite a thriving business center in the neighborhood. The pier will have a width of fifty feet and will extend \$50 feet into the sea, supporting bath-houses, boathouses, tea garden and numerous booths on its double decks.

BY THE WAY

The Ontario and Los Angeles military bands will play on North Beach and Oregon avenue and there will be a band on Pler avenue. Mrs. Dickens will read the Declaration of Independence and W. A. Harris will deliver an oration. The oration on Pier avenue will be by Gen. O. H. LaGrange of the Soldiers' Home. In the afternoon there will be baseball, polo games and races and balloon ascension and parachute jump. At night there will be fireworks from the piers, an electrical display on the bluff and a dance at the auditorium. BY THE WAY. C. M. Lindsey was reëlected public library trustee to serve for four years.

Pacific and Bicknell streets are to be improved from the beach eastward to South Third street, the Council having adopted the resolutions of intention.

SOCIETY. S TANDING beneath a large bell of fragrant sweet peas Miss Marilla Pool last evening became the bride of Cylos T. Dunsmoor. Rev. F. S. Forbes performed the ceremony. The wedding took place at the East Los Angeles Congregational Church, which was made beautiful with many flowers and ferns. In front of the altar rail clusters of fragrant Easter lilies were arranged, and behind them potted plants and nalms formed an effective background. White sweet peas were in low bowls on the altar. Just over the couple the bell of swet peas and asparagus plumosus was fastooned in great ropes from all the arches, and potted palms and plants were used artistically throughout the auditorium. The pewa which were for the family and intimate friends were marked with large white bows of tuile, with sweet peasured in among the filmy folds. The bride, who is a daughter of Mr. and Mrs. W. N. Pool of No. 133 North Ave. 24, were a particularly handsome frock of white mouselline de soie, with a panel of lace medallions down the front of the skirt, and edged with ruchings of white chiffon. About the top of the wide ruffle that finished the skirt was a row also of lace. The waist had a bertha fashioned of medallions and a lace yoke with an applique of pearls was especially pretty. Large droopy sleeves and a girdle of taffets ribbon arranged in a shower at the back finished the dainty gown. Over the face of the bride fell a veil of softest tulle, and she carried a shower bouquet of white swet peas and maldenhair ferrs. She was attended by ber sister, Miss Louise Pool, as maid of honor. The latter wore a soft gown of white chiffon over pale green silk finished with a French bow of white tuile. The three bridesmalds were Anita Burchill, Gladys Thomas and Blanche Little. They were all gowned in white chiffon over green silk, and carried a shower bouquet of maidenhair ferns tied with a French bow of baidenhair ferns were derived and slowly filed out of the pussions. The best man was Clem S. Glass. The ushers were George N. Turner, Warren L. Thoma

stood in the alcove of the front room beneath a lover's knot of white tuile, from which were strung many tiny white wedding belis. Hanging baskets of sprengerii were behind them, and white carnations were intermingled in the greenery. From the chandelier to the corners of the room great ropes of asparagus plumosus were festoned hum. Fith many wedding belis and vases filled with the snowy carnations added much to the beauty of the apartment. The library was in pink and green, pink wedding belis, and asparagus plumusus being artistically combined. Over the long low bookease, pink hydrangeas and ferms were banked, and lights shaded with pink cast a glow over the scene. The diningroom was in red. A fish net on one side of the eroom was draped, and enmeshed in its folds were scarlet geraniums and ferns, and the table was decorated with scarlet geraniums. Bed wedding belis were used here. The gift room was in white and green. Behind a screen of palms De Nubila's orchestra rendered music.

In Their Own Home.

In Their Own Home.

In the little home which the groom has prepared for the bride at No. 808 West Thirty-second street, last evening, Miss Fannie Hammond was united in marriage to C. B. Diller. Rev. Frank DeWitt Talmage of the First Presbyterian Church performed the service. The bride is a daughter of Mrs. M. J. Hammond of the city and is by birth a southern girl, with the dark olive skin and flashing brown eyes of the typical maid of the South. She wore a champagne-colored cloth of gold gown with trimmings of yellow lace, and in her hair was a wreath of white sweet peas. The couple stood for the ceremony under a hoop of satin ribbon on which lightly rested a white dove. Pink sweet peas were massed behind them, and there were pink and white sweet peas and maidenhair fern about the room. Little Miss Helen Tummey acted as ring bearer. She wore white and carried a basket filled with rose leaves. Master Byron Diller, a nephew of the groom, was ring bearer, and carried his precious 'reasure in a sliver hasket filled with voice leaves, and the with white sweet peas and tied with tulle. After the ceremony there was a reception and later the comple left for the North. They will be hone after July 20 at No. 808 West Thirty-second atreet.

Japanese Play.

There is to be a Japanese play given on the evenings of July 8 and 9 at the Dobinson Auditorium, under the direction of Miss Josephine Williams. The young woman who takes the principal part in this play is Miss Hortense Barnard Jones. She takes the part of Mitsu Yu Nisi, who is sent to America to be educated, and afterward returns to Japan where, according to custom, her parents have chosen a husband for her who proves to be a rich old Jap. Poor Mitsu falls in love with the son, and at first they plan an elopement, but after being advised by the high priest, they decide not to see each other again, and poor Mitsu is to be married to the nobleman of the city of Tokio. The piece ends thrillingly with the knots untangled. The participants in this cherry-blossom land play are about seventy-five in number and are of the younger set of Los Angeles.

effect. In this difficult part she is obliged to keep the eyes absolutely motionless during her scenes. It has required hard work to obtain this proficiency, but the very pretty eyes of this young lady will attract even more than usual attention as she passes through this ordeal.

The part of Douglas Winthrop will be taken by Ward Heller, and his many friends will be interested in seeing how well a successful young business raan who has no intention of going on the stage will play the part.

The part of Constance will be played by Lucille Hall, who, will graduate from the Doblinson School on the 20th inst. She is also a graduate from the department of elocution of the University of Southern California.

class, later in the day, also took steps to do so.

"There have been no suspensions on account of the daubing of the paint," said Vice-Principal Henry, the acting principal, yesterday afternoon. "The indications point to the conclusion that the work was done by persons not now students. I do not believe that it is due to any rivalry between the two senior classes."

For many years it has, with few or no exceptions, been an annual incident for the number of the year to be marked in bright-hued paint in front of the building on the hill.
